A history of dedication and success, 100% Made in Italy

Orsadrinks was born in **1992** in Italy, in the South of **Piedmont**. Originally, the product range was limited to powdered drinks such as hot chocolates and frappes but, after observing how the cocktail scene in the U.S. was booming, Orsadrinks soon decided to diversify into the **cocktail market**.

As a constantly evolving reality, Orsadrinks has been able to grasp, and sometimes even anticipate market trends, establishing itself as a **favorite brand** in the drink industry among top bartenders around the world.

In addition to the **iconic ODK line**, the company has added also **Stillabunt** and **Malafemmina** brands, not only to **complete its offer**, but also aiming at **developing innovative products**.

The first range of Fruity Mix for cocktails was launched in Italy in 1994. The first decade of the 2000s was characterized by a **dedication** to **Research & Development**: starting with only a limited range of products, the company expanded its offer to encompass many different fruits and flavors.

Exports began in **2009**.
During the second decade of the 2000s the company underwent **restructuring**, both at corporate level and in the organizational structure, to support a global reach.

THE AUTHENTICITY OF THE MADE IN ITALY VISION, FROM PIEDMONT TO THE WORLD

In this phase, Orsadrinks also decided to **internalize** the **production**, making huge investments in highly automated and **innovative equipment**, driven by the will to have full control over the production chain.
Today, we are a trusted partner and a brand of choice in the drink industry in **more than 50 countries all over the world**, with **over 150 products**.

GROUNDBREAKING FACILITIES AND HIGHLY TECHNOLOGICAL PRODUCTION PROCESS

Our **team** is the heart of our company: we are proud of the different vocations and origins of every member of Orsadrinks family. Orsadrinks constantly enriches and improves its product offer, through **research** and **continuous technological innovation**, in order to meet the expectations of bartenders around the world, providing solutions for every occasion, from early in the morning until late at night.

We are located in the heart of **Piedmont**, home to some of the most important naturalistic excellences of the world and particularly very close to the Unesco World heritage region of **Langhe**.
Our company stands at the foot of the **Alps** and just in front of one of Italy's most famous mountains: Monviso, on whose northern slopes originates Italy's longest river, the Po.
Thanks to this privileged position, we can source **water**, which is a main ingredient in all our products, directly from the Alps.
